Mead Announces \$56 Million Mill Expansion Project For Escanaba

Cong Guerrillas Maul U.S. Unit In Marsh Fight

SAIGON (AP) — Viet Cong guerrillas pounced on a platoon of about 40 U.S. infantrymen as they landed by chance Monday in a Communist bivouac area, triggering a 10-hour battle 19 miles south of Saigon.

In the third big clash within 25 miles of Saigon since Saturday, 17 Americans and at least 26 guerrillas were killed and 27 Americans wounded, the U.S. Command said. American infantrymen pursued the guerrillas today but reported no contact.

The American platoon suffered heavy casualties but managed to hold on until a company of reinforcements arrived by helicopter, a spokesman for the U.S. 9th Infantry Division said.

Enemy gunners shot down three helicopters as they swooped low to support the outnumbered infantrymen, but all of the choppers came down in secure areas and there were no casualties, the spokesman said.

The battle broke out at 1:25 p.m., after helicopters landed the infantry platoon in a muddy marsh of the Saigon River delta. American commanders had not known it was the bivouac area of an estimated 400 guerrillas.

Struggling through knee-deep mud, the Americans formed a perimeter and laid down heavy fire as the enemy massed for an all-out assault.

Helicopter gunships and fighter-bombers swarmed overhead to help the small band of Americans. At 2:45 p.m., a company of troop-carrying choppers defied the guerrilla gunners and swept in with a company of reinforcements.

The 9th Division command moved two more companies in at dusk and by midnight units of all three battalions of the division's 3rd Brigade were maneuvering through the marshes and rice paddies.

The guerrillas fought until 11:40 p.m., the U.S. Command said, then faded away through the canals and paddies.

Brig. Gen. William R. Desobry concluded a tour as senior American adviser in the Mekong Delta today and said the Viet Cong there are "going down steadily. Pacification has taken hold. There has been significant success."

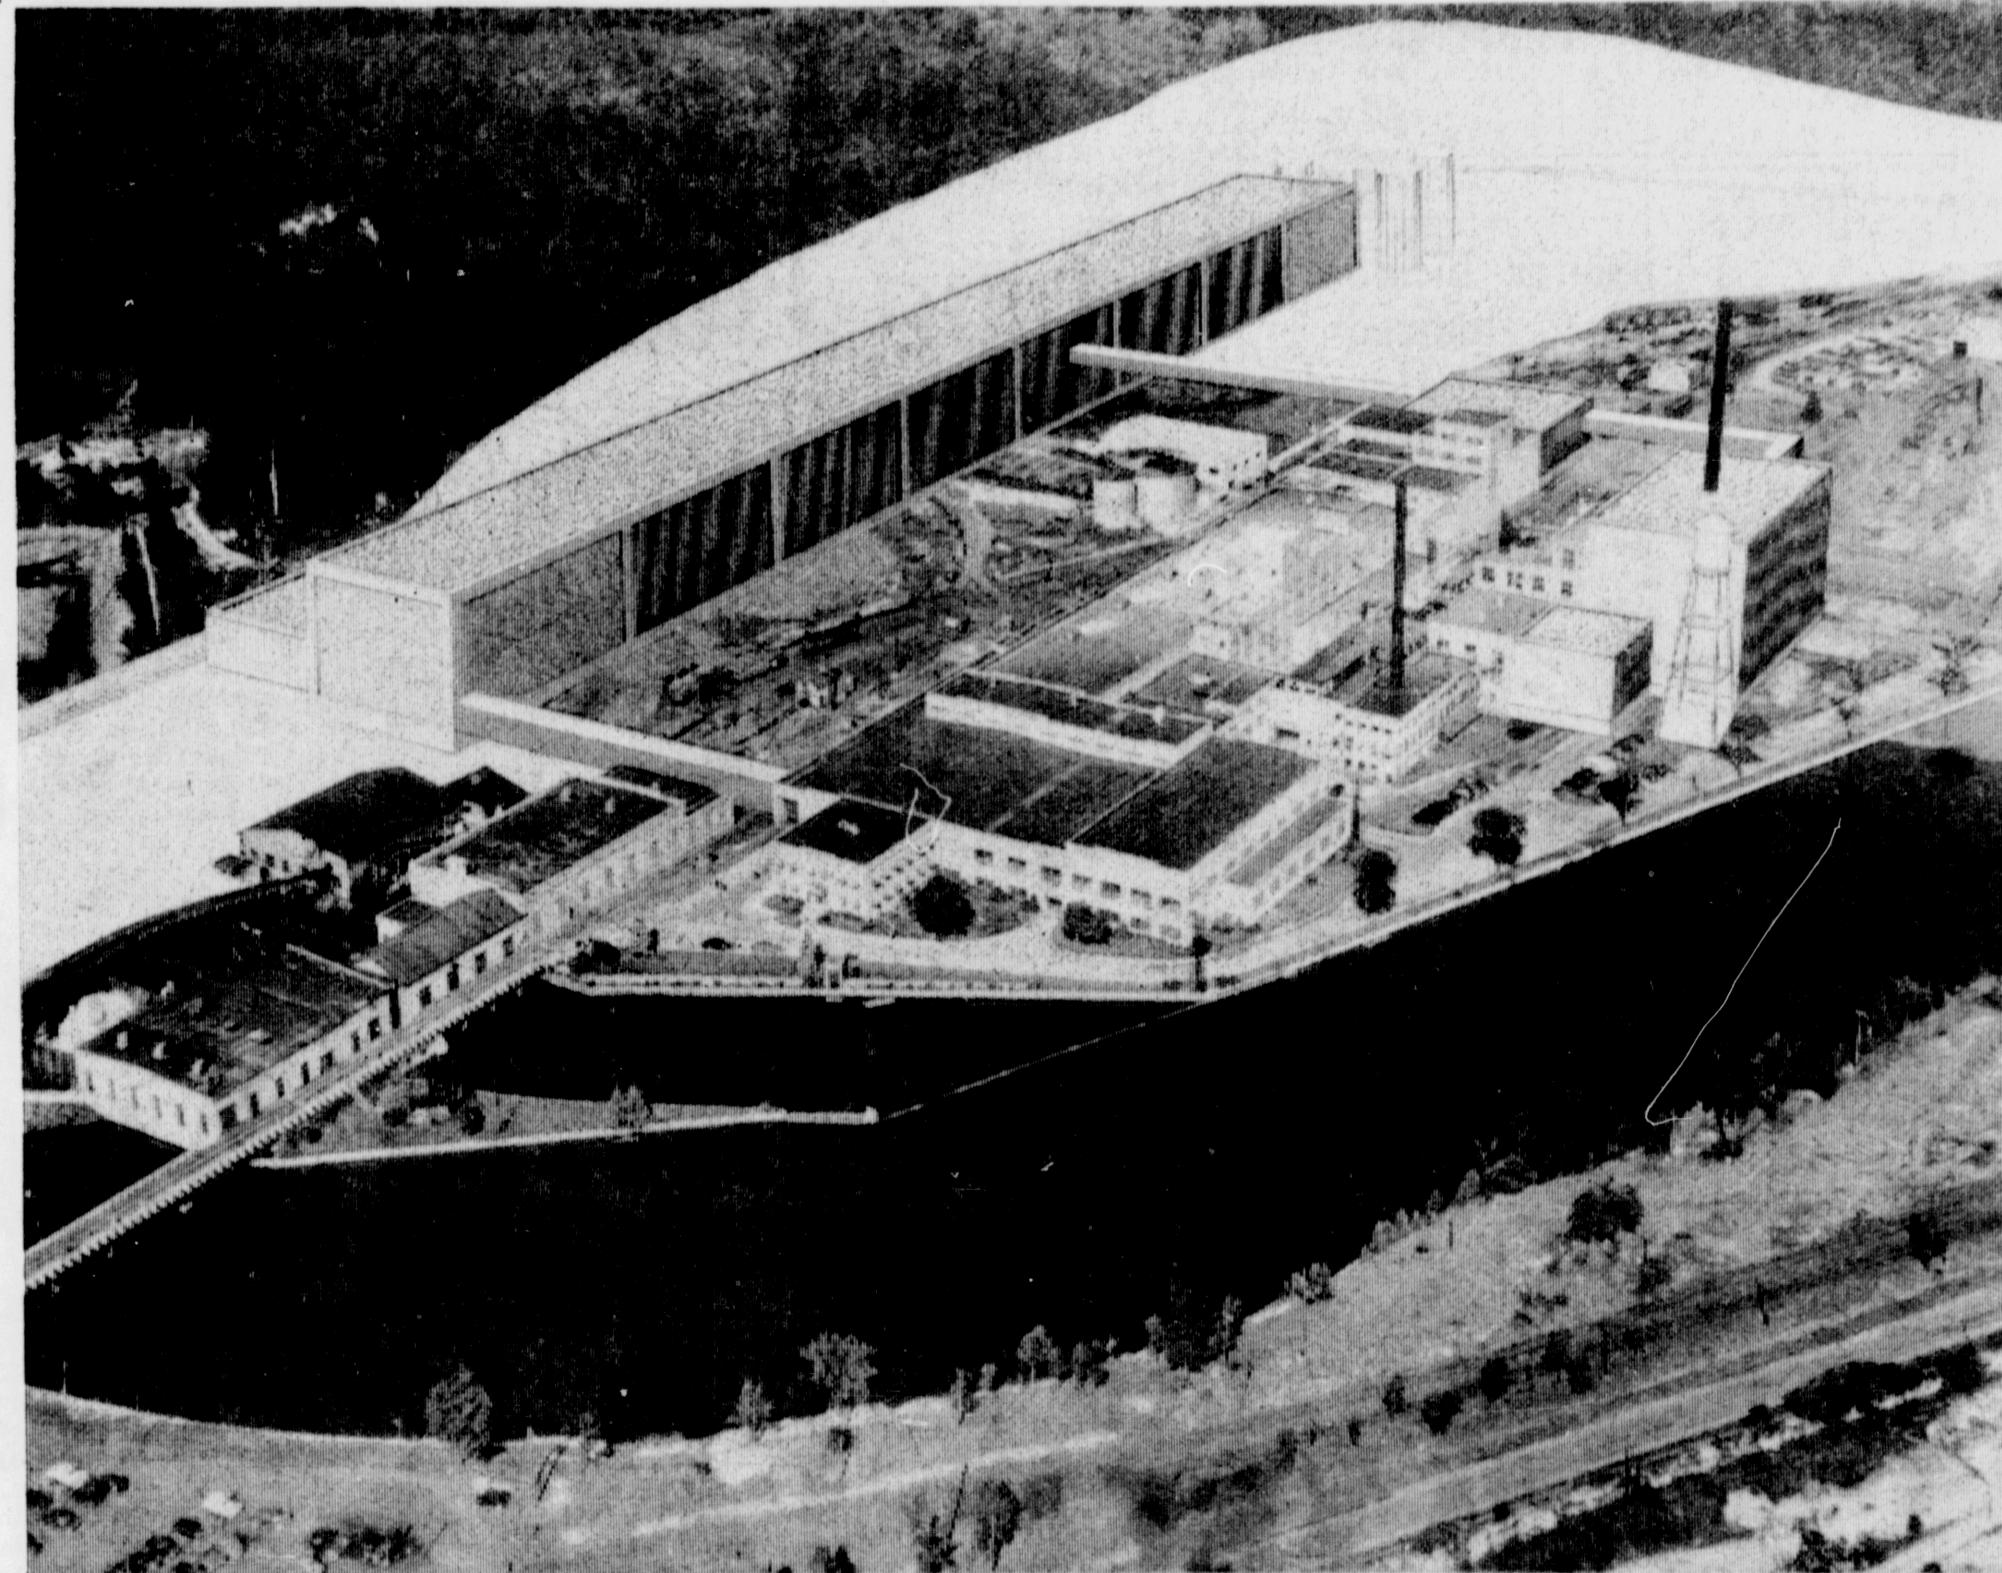

Weather

ESCANABA AND VICINITY—Light snow and warmer today, high 23. Cloudy and windy with snow flurries tonight, low near zero. Wednesday, mostly fair and cold. High yesterday, 21 and low overnight, 3 below zero. Thursday outlook: warmer with snow likely. Southeast winds (20 to 25 mph) shifting north and northwest tonight. Precipitation probabilities: today, 80%; tonight, 50%; Wednesday, 10%.

Upper Peninsula—Light snow this afternoon, diminishing to snow flurries by evening. Highs 6 to 16 above zero. Variable cloudiness and cold tonight with a chance of snow flurries near Lake Superior. Low 6 to 16 below zero. Partly cloudy and colder Wednesday. High 4 above zero to 4 below.

Sun sets today at 4:23 p.m. and rises Wednesday at 7:28 a.m.

EXPANSION UNDERWAY at the Mead Corp's Escanaba Division pulp and paper mill at Groos on the Escanaba River includes a new 300-inch-wide paper machine, to be housed in the long building sketched into the upper left of this aerial photograph of the mill. The buildings with pebbled roofs are to be constructed in the first phase of the expansion project now starting. To the left of the big (over quarter mile) building to house the No. 3 paper machine is the new shipping department. The square building to left of the water tower will house the new 25,000 kilowatt turbine generator and the

big building above it will extend the power plant to house a 600,000-pound-per-hour steam boiler. The building at top of the present mill, center, will house the new hydra-pulping equipment. Likely site for the new office building for mill personnel is in the bottom corner to right of the No. 3 machine building. The present office building faces the river to right of the groundwood pulp mill which is at bottom left. (Mead engineering drawing on Escanaba Daily Press Photo by Bernard Schultz)

Probe To Land At 8:15 Tonight

PASADENA, Calif. (AP) — Surveyor 7 appears set to make a soft landing on the moon tonight.

It will make the last U.S. probe of the moon before man heads there himself.

Scientists at the Jet propulsion Laboratory will attempt to put the craft down near the rugged highlands north of the crater Tycho.

It carries a television camera, a small scoop to dig trenches, a device to analyze soil with radiation and magnets to detect iron.

If things go well, the 2,288-pound space vehicle will be slowed from 6,000 miles an hour by retrorockets so that it will be going 3 m.p.h. 13 feet above the lunar surface. It will free fall the last 13 feet.

Landing was expected about 8:15 p.m. EST.

Kasperak Is Given Blood Transfusions

STANFORD, Calif. (AP) — Mike Kasperak, beset with many complications after his heart transplant operation, is in critical condition today.

The 54-year-old ex-steelworker received a new heart Saturday night to replace his failing one.

His condition became critical Monday when he began to bleed from the stomach and intestines. Blood transfusions and other measures appeared to have stopped the bleeding, which his doctors attributed to a severe pre-existing liver disease.

Physicians said he was suffering some kidney failure also.

Though conscious and able to signify responses, Kasperak

needed help breathing—a tube in his throat—because of lung disease.

These many complications are severe but soluble as long as the heart function is good,"

State Building

GRAND RAPIDS (AP) — A proposed 10-story state office building in downtown Grand Rapids' Vanderberg Center may be under contract next fall, city officials were informed Monday. The state purchased the land last April with the understanding that construction would begin within a year but state financial problems created a delay.

Doctors said Kasperak's cardiac output was only slightly below normal and the heart appeared to be functioning very well.

His condition was satisfactory from the end of the operation until the internal bleeding began.

Kasperak even watched 10 minutes of a televised news conference about the operation, nurses said. Drs. Shumway and Donald C. Harrison, head of the medical school cardiology division, held the conference at Stanford Sunday afternoon.

The patient's wife, Ferne, has visited him three times.

Kasperak's diseased heart forced him to quit work 18 months ago. He and his wife moved from Cleveland to East Palo Alto, near Stanford.

He received the heart of Mrs. Virginia White, 43, of nearby Santa Clara two hours after she died. Mrs. White, mother of two, suffered a stroke—brain hemorrhage—the night preceding the heart transplantation. She lapsed into a coma and never recovered consciousness.

Kasperak's heart transplantation was the second performed in the United States. Two others were performed in South Africa.

The store normally has 14 employees. Six of them had reported for work at the time of the explosion and fire.

All three of the injured persons were in the store at the time of the blast.

Jackman and Jack Arola, who were having coffee at the store's lunch counter, rushed to the basement to rescue Miss Skeenes. Jackman was burned in

making the rescue.

Blast, Blaze Destroy Store; Three Injured

ISHPEMING — An explosion touched off a fire this morning which destroyed the F. W. Woolworth Co. store, causing a loss estimated at nearly \$200,000.

Three persons were injured and are in Bell Memorial Hospital suffering from 1st, 2nd and 3rd degree burns.

City firemen fought the blaze in nine degree temperature for more than an hour before bringing it under control.

The Woolworth store, valued at more than \$75,000, and the stock valued at more than \$90,000, were destroyed. Smoke damage resulted in the adjoining J. J. Newberry Store, which was closed for the remainder of the day. Other damage included broken windows in a bank, in law offices above the bank and in the

across the street.

The explosion, the cause of which has not been determined, occurred shortly before 8:15 a.m. today. It blew out the plate glass windows of the store and apparently weakened the front of the building so that the front wall fell in a half hour later.

The store normally has 14 employees. Six of them had reported for work at the time of the explosion and fire.

All three of the injured persons were in the store at the time of the blast.

Jackman and Jack Arola, who were having coffee at the store's lunch counter, rushed to the basement to rescue Miss Skeenes. Jackman was burned in

making the rescue.

GRAND RAPIDS (AP) — Possible helicopter ambulance service is being studied by Kent County supervisors faced with maintaining ambulance service for out-of-county areas where general directors eliminated the service this year. Supervisor Harold Worst is flying to San Francisco next week to study helicopter ambulance use at a three-day conference of the American Medical Association.

The President and the prime minister considered the implications of the pace of rearmament in the Middle East and the ways and means of coping with this situation.

"The President agreed to

Phase 1 Brings Power Plant & Third Machine

Mead Corp. announced today at its Dayton, Ohio headquarters plans for a multi-million dollar expansion of its Escanaba paper mill.

Bonds in amounts up to \$56 million to provide financing for the first phase of the expansion were authorized Monday evening by the Board of Cornelia Township, Delta County under the Michigan industrial development revenue bond program which provides tax-free bonding for industrial development projects which qualify for such sponsorship. The tax exemption is worth up to one per cent in interest rates on such financing.

Howard E. Whitaker, chairman of the board of Mead Corp., said a large new machine for the manufacture of coated papers is the major item in the planned expansion.

Site Being Cleared

Preliminary site construction has been started at the millsite on the Escanaba River at Groos by A. Lindberg & Sons, Inc., of Ishpeming and the site clearing and leveling is well along and an access road from M-35 on the north side of the Escanaba River is nearly complete.

When completed in the fall of 1969 the expanded mill will increase its capacity for the manufacture of coated papers by more than 100,000 tons a year over its present production capacity of 85,000 tons from the mill's two paper machines.

The expansion is expected to add about 200 people to the 600 now employed.

The 300-inch paper machine to produce coated book and groundwood grades of papers for letterpress, offset and gravure printing, will be the largest in the Upper Michigan-Northern Wisconsin region.

The mill's present 166-inch machines were built in 1920 and have been extensively rebuilt several times.

Quarter Mile Long

The new third machine will more than double the mill's present wood pulp needs and it will be so huge that the building to house it will be more than a quarter mile long and will dwarf the present machine's housing. The machine building will be 1,210 x 104 feet and will be 76 feet high. It will be on the north or upriver end of the millyard and a dyke impounding the Escanaba River there will be removed to open a site for its northwest corner. A dam will be constructed upriver to permit the change.

The project plans for Phase 1 include pulp makedown

Israel May Get More U.S. Arms

SAN ANTONIO, Tex. (AP) — President Johnson's talks with Israeli Prime Minister Levi Eshkol have produced an indication that a Soviet military buildup for Arab nations may mean more U.S. arms for Israel.

This was the outcome of conferences spread through 25 hours Eshkol spent at the LBJ Ranch Sunday and Monday—conferences at which U.S. officials had said a durable peace in the Middle East would be the prime subject.

A joint statement omitted any pledge that the United States would allow Israel to buy 50 F-4 Phantom jet fighter planes.

Eshkol wanted them as an offset to what he says is a dangerous resupplying of Soviet arms to the Arab nations after the June war with Israel.

This was a restatement by the two leaders of their "dedication to the establishment of a just and lasting peace in the Middle East."

And they reaffirmed calls for peace elsewhere in the world, although no direct mention was made of Vietnam.

It was the first sunny day in a week—but frigid—when Eshkol and his wife came to Texas Sunday afternoon. That was the last decent weather they saw and they got a good look at the ranch.

It was back to rain Monday—freezing rain and iced roads in the hills where the ranch sits beside the Pedernales River.

At Bergstrom, plans for a clivus sendoff were abandoned, although the mayor and City Council had turned out to see the Eshkols off for New York.

The sailors arrived here Dec. 29 from Moscow where they protested against the war on television and in the Soviet press.

They are John M. Barilla of Catonsville, Md.; Richard D. Bailey of Jacksonville, Fla.; Craig Andersson of San Jose, Calif., and Michael Landner of Pocono, Pa.

Sweden Grants Sailors Refuge

STOCKHOLM (AP) — Sweden granted sanctuary today to four American sailors who jumped ship in Japan to protest the Vietnam war.

The decision by the Aliens Commission was unanimous. In its verdict it said that it did not consider the Americans as political refugees but that they would be allowed to remain in Sweden for "humanitarian reasons."

The sailors arrived here Dec. 29 from Moscow where they protested against the war on television and in the Soviet press.

Passenger Record:**Airport Traffic Reaches 16,132**

Passenger traffic volume greater than the equivalent total of every man, woman and child in Escanaba was achieved at the municipal airport in 1967, it is reported by City Manager George Harvey.

The number of passengers arriving and leaving the airport rose to a record 16,132, exceeding by 1,774 the 14,358 of the year before.

The record use of the airport was made in a year of planning for development whose fulfillment fell short of expectation, largely because of a cut-back in federal funding. There was

Gain Each Year

Escanaba's request for federal funds to help finance a runway extension, taxiway and apron was scaled down by the Federal Aviation Administration; but hopefully the funds will be restored, said City Manager Harvey. In any event, the runway extension is assured.

The growing volume of air traffic is indicated in total passengers served through the years:

1963—10,101
1964—10,207
1965—12,671
1966—14,358
1967—16,132

There were several factors encouraging the rapid increase in air passenger volume at Escanaba last year, including the new service offered by Peninsula Air Transport, the continuing growth of North Central Airlines services, and a general gain in private flying that accompanied industrial development in the area.

Peter Meisler Dies On Monday

Cub sessions will be presented by Lloyd Strahl and will feature the February theme Freedom Festival. Boy Scout theme for February is Merit Badge Show and will be covered by Robert Jones.

Both sessions will include ways and methods of observing National Boy Scout Week.

Vaino M. Aho Dies Suddenly

Vaino M. Aho, 73, of Trenary died suddenly at 1 p.m. Monday at his home. He was born Aug. 21, 1894 in Finland and had resided in Trenary since 1932. Mr. Aho was a retired woodworker and farmer.

He is survived by two sons, Toivo of Trenary and Arnold of Chicago; two daughters, Mrs. George (Sylvia) Wertanen and Mrs. Marvin (Laine) Johnson, both of Chicago; a brother, Edward of Trenary and two brothers in Finland and one sister in Finland, 12 grandchildren and one great grandchild.

Friends may call at the Bowmer-Hallifax Funeral Home in Munising after 1 p.m. Wednesday. The body will be removed to the Trenary Lutheran Church at 12:30 p.m. Thursday and services will be conducted at 1:30 p.m. with Rev. Janis Dombrovskis officiating. Burial will be in the Trenary Cemetery.

Goiter Incidence Rises, Iodized Salt Use Urged

Peter J. Meisler, 69, of 1210 Stephenson Ave., died at 8:10 p.m. Monday at St. Francis Hospital where he had been a patient for one day.

He was born in Stonington on July 9, 1898. Mr. Meisler was a member of the Immanuel Lutheran Church and the Brotherhood of Railway Clerks.

He is survived by his widow, the former Esther Norman; one daughter, Mrs. Richard (Joyce) Hellerstedt of Iron Mountain, three grandchildren and one brother, Arthur Meisler of Stonington.

Friends may call at the Anderson Funeral Home from 4 to 9 p.m. Wednesday and the body will be removed to the Immanuel Lutheran Church at 12:30 p.m. Thursday and funeral services will be conducted at 1:30 p.m. Rev. Roger Patrow will officiate and burial will be in Lakewood Cemetery, Stonington.

By CLINT DUNATHAN

Northern Michigan's tourist and recreation industry has a lot of coho fishing in its future, a group of about 150 interested persons were told at a meeting at the Fireside at Manistique Monday night.

Although there were no specific announcements regarding coho planting where or when, Rep. Charles Varnum of Manistique recognized the symptoms of "coho fever" and assured the group they would be pleasantly surprised and happy with the plantings the Department of Conservation is planning for next spring.

"I have had more letters about coho and more people have talked to me about coho than I ever had on the sub-

The name Isaac means "laughter."

Fishing Future Is All 'Go For Coho'

RESCUE PEOPLE who cooperated in the presentation of information about the anticipated impact of coho salmon on the region were (from left, seated) David Farrand, Escanaba, U. P. Committee on Area Progress; Larry Haack, Escanaba, U. F. Forest Service recreation specialist; Iain Christie, tourist and recreation specialist, MSU Extension;

Ray Gummerson, district natural resource agent, MSU Extension; (from left, standing) Ken Dorman, Upper Peninsula Tourist Association; Rep. Charles Varnum, Manistique; and Jack Scott, Houghton, Department of Conservation fish biologist. (Daily Press Photo)

ject of the state income tax," Rep. Varnum commented.

Varnum warned that the coho program is still in the "experimental stage" and that many questions have been raised that are yet unanswered, but the attendance at the meeting on a cold and stormy night "indicates the intense interest" in the program designed to improve sports fishing on the Great Lakes.

See Potential

"However, you will not find out tonight where the coho are to be planted next spring, but I am sure that no one will be disappointed with the program of planting that will be carried out by the Conservation Department," he said.

(In late November Rep. Varnum said that Delta County is to receive a planting of coho salmon in the spring, and Conservation officials in Escanaba indicated the Whitefish River which empties into Little Bay de Noc is the most likely place for the planting.)

Although lacking in specifics on proposed planting sites, the program through the cooperation of a group of consultants was complete in its review of the history of coho on the Great Lakes — plus projection of this initial success into a bright future for sports fishing generally.

Thousands Of Anglers

The meeting, the first of three in the U.P., was co-sponsored by the Chambers of Commerce of the area and Michigan State University Cooperative Extension Service. Dave Kelly, president of the Top O' Lake Michigan Chamber of Commerce, Manistique, was master of ceremonies. Similar meetings are to be held in Marquette and Houghton.

Large scale plantings of coho salmon were made in 1966, with about 650,000 going into Lake Michigan and about 200,000 in Lake Superior. Since then there have been runs of the fish in the fall (September and October) that have attracted national attention of sports fishermen and spurred optimism that the Great Lakes is to have rebirth as a sport fishing center. The runs occur at river sites where the plantings were originally made.

In the spring of 1967 about twice as many cohos were stocked and chinook salmon were also introduced. Fishermen flocked to the salmon grounds in the fall and between the mouth of the Manistee River and Sleeping Bear Dunes on Lake Michigan as many as 6,000 boats were out at one time.

To Plant 5 Million

The salmon also feed on the alewife and this will tend to reduce the quantity of these

Future Of TV Seen As Bright

Television and its future was the topic discussed by Robert Southard, vice president and general manager of WFRV-TV, Green Bay, in a talk to the Kiwanis Club Monday.

Southard said that the television industry has boomed since its conception, and that growth is still mushrooming. Even before the black and white sets were being used in many homes, the industry had a rebirth in the advent of color television, he said.

More than one-third of the Upper Peninsula and Northern Wisconsin area will have color sets by the end of 1968, Southard continued. WFRV-TV is the first all-color television service in Wisconsin outside of Milwaukee he stated.

Television has aided in the fields of education, and legislation for non-commercial television systems is going to become an even greater force, Southard said.

The projected growth for the industry in the next 10 years is quite phenomenal, with more and more stations being erected, and an almost universal acceptance of television as an entertainment center.

Southard was introduced by program chairman Jack Foster.

In another part of the program, Krin Bloom was presented with a Legion of Honor Award and pin for his more than 30 years of service with the local Kiwanis Club.

Carl Anderson Dies Today

MANISTIQUE—Carl F. Anderson, 65, of 644 Arbutus Ave., died at 12:30 a.m. today at Schoolcraft Memorial Hospital. He was born Feb. 5, 1902 in Manistique and was a life long resident.

He was married to the former Faye Bretz in Manistique on June 2, 1938. Mr. Anderson was employed at Putvin's Drug Store. He was a member of the First Methodist Church and the Elks Lodge 632.

He is survived by his widow; one daughter, Sandra Faye of Kalamazoo and a son, John, Kalamazoo and one grandson; two sisters, Mrs. Ed Nylander of Manistique and Mrs. Reed McGee of Mount Pleasant.

Funeral services are tentatively set for 2 p.m. Friday at the Kefauver and Jackson Funeral Home with Rev. William Kelsey officiating.

New Auto Locks Will Cut Thefts

DETROIT (AP) — All 1969 General Motors Corp. automobiles will be equipped with ignition switches that will automatically lock the steering column and the transmission.

This will go beyond and beat by more than a year a proposed federal rule that would require all automobiles manufactured after Jan. 1, 1970, to have switches that will lock either the steering column or transmission, as well as the ignition system.

The 1969 models will begin making their appearance next September.

In addition to the transmission or steering lock which the National Highway Safety Bureau proposes to make mandatory, the federal agency also would require after Jan. 1, 1970, a warning device that would alert the driver when the door is opened that he has left his key in the switch.

Single Key System

GM said a buzzer warning device it installed in 1968 models will be continued.

GM's new locking system will make it impossible for a driver to remove the ignition key until the car is locked properly. The switch for the single-key system will be on the steering column.

"We are confident," said Edward N. Cole, GM president, "that these and other innovations in our over-all vehicle security system will help stem the increasing number of automobile thefts which has become

one of the fastest growing crime categories.

"Drivers left ignition keys inside more than 40 per cent of the half-million cars stolen in this country last year. Most of these were taken by youngsters—teen-agers unable to resist the temptation of an unlocked car. "We think our new multilock system will greatly reduce these 'amateur' thefts which have led so often to truly tragic consequences."

On Display Today

"It also," Cole added, "can thwart the professional who steals cars for resale or stripping."

Ignition, steering and transmission will be locked simultaneously when 1969 GM cars with automatic transmissions are shifted into the park position and the key turned to "lock." The lever must be in "reverse" to lock cars with manual gear shifts.

The new GM locking system was displayed publicly for the first time Monday at the annual meeting of the Society of Automotive Engineers at Detroit's Cobo Hall.

"FLOWER ANIMALS"

Sea anemones are delicate "flower animals" but they are extremely dangerous when approached too closely. Their hollow tentacles each have a poisonous barb with which they pierce and paralyze their victims.

REV. ALBERT CLEAGE, militant Detroit Negro leader, told newsmen in Detroit that he has rejected a proposed \$100,000 Ford Foundation grant. Cleage, a Black Power advocate, heads the Federation for Self-Determination, a group established to help rebuild Detroit's Negro community. (AP Wirephoto)

State Beats Postage Hike

LANSING (AP) — At the rate of a penny a stamp, the State Administrative Department reports it saved some \$700 through early mailing of employee W-2 forms.

The state mailed out 69,635 of the forms Friday at five cents a letter, just ahead of the first class mail hike to six cents. The forms went to state employees, detailing their earnings for the past year.

George Washington, head of the Administrative Department, said the use of data processing machinery made the early mailing possible.

Washington added that the present number of state employees is 40,896. With the addition of part time and seasonal help plus other employees leaving, the turnover for the year was 28,739 workers.

Police Hunt For Pink Elephant

TRAVERSE CITY (AP) — Police in this northern Lower Michigan community are searching for an 80 pound pink elephant named Penelope.

Parents of the children who are found to have hearing difficulties will be notified.

The elephant, made of cast iron with her trunk rigged for a lawn sprinkler, disappeared from its owner's front yard the other day.

Ocean Frontier Report Praised

By CYNTHIA LOWRY

NEW YORK (AP) — Sharks, said Jacques-Yves Cousteau in the warm and almost reverent voice he used for everything about his beloved ocean, are "splendid savages—magnificent inhabitants of the seas."

They are also fierce and frightening fish turned into rippling, tearing creatures by the scent of blood or the sight of prey. An hour report on the investigation of these predators of the deep by the French oceanographer and the crew of his laboratory ship opened "The Undersea World of Jacques-Yves Cousteau" on ABC Monday night.

The awesome climax of the program was unique film of a "feeding frenzy" when a pack of hungry sharks were teased by food bait into attacking even each other. Most impressive were the daring divers working with practically no protection close to sharks in order to tag them for a study of their migratory habits.

It was a spirited, impressive start for a series which will be shown at irregular times over the next five years.

Monday's episode of ABC's "Peyton Place" should not go unnoticed. For better or for worse, it was the 400th episode of the nighttime serial which is

now healthily into its fourth year with no signs of structural fatigue.

It is almost impossible for the occasional viewer to know much about the plots and subplots that are constantly developing but there seems to be plenty of story tossed around.

Jets Quiet Guns

TEL AVIV, Israel (AP) — Israeli jet fighters screamed across the Jordan River Monday to silence Jordanian artillery which opened up on Israeli settlements in the tense Besian Valley, an army spokesman announced here.

Mead Reveals \$56 Million Expansion Plan

Huge Machine Tops Additions

(Continued from Page One)

The \$56 million in revenue bonds authorized by Cornell Township has been described as more than sufficient for Phase 1 in its present stage of planning, but the plans are not complete. Further engineering will determine the funds required for stream, pollution control, replacement of present facilities and, in turn, the net cost of the project.

Rust In Charge

The Rust Engineering Co., is doing the engineering on the mill expansion and will supervise the construction. It is a nationally oriented construction engineering firm and its Birmingham, Ala., office is serving this Mead project, with Gary Jones, who is now living in Escanaba, serving as superintendent on the site.

George S. Douglas, manager of Escanaba Division of Mead Corp., said that the mill expansion project is in three phases of which Phase 1 is starting, with Phase 2 tentatively scheduled for construction in from 3 to 5 years and with Phase 3 indefinite as to time and dependent upon technological, economic and financial factors.

Buying Pulp

Phase 1 will provide a large addition to the turbine building, a huge addition to the power plant, the hydra-pulper building addition, two outbuildings to house equipment, the paper machine building, the shipping building and an office building for mill personnel.

The power plant plans call for gas-fired boilers. Full implementation of the expansion project would make Mead-Escanaba one of the state's largest customers of Michigan Consolidated Gas Co. for natural gas.

Phase 2 is planned at present to provide a new pulp mill at the east end of the present mill, which is served by a groundwood pulp mill producing about 25,000 tons of groundwood pulp a year from about 25,000 cords of wood. This is about a third of the mill's present pulp needs, the rest being supplied by pulp purchased from Mead's Northwood Pulp, Ltd., mill at Prince George, British Columbia and its Brunswick Pulp & Paper Co., mill at Brunswick, Ga.

Fourth Machine

The new pulp mill will be a kraft process (sulfate) mill, capable of using the dense hardwoods in such abundant supply in Upper Peninsula forests, and it will probably include a groundwood unit, as there is a role for such pulp in the mill's technology, but whether the new groundwood unit would be a stoker like the present one or a technical pro-

cess groundwood mill has not been announced.

Phase 3 would provide a fourth paper machine in the space between the mill's present No. 1 machine and the new No. 3 machine. The site has been reserved in master planning.

The project plans are considering a spur line of the Soo Line Railroad to serve the mill, in addition to the Escanaba & Lake Superior Railroad, which serves it at present.

Plan Pond

When the new kraft pulp mill is built the present wood yard will be moved to the north.

A large pond will be constructed as a part of the effluent disposal system and a water intake from the Great Lakes is planned as a part of the pulp mill project because of the large water needs of such an establishment. The Escanaba River, which supplies the mill's water needs, could supply the water, but its recovery capacity would be affected.

The huge increase in the mill's pulpwood needs with completion of Phase 2 and start-up of the new pulp mill will greatly enlarge the Upper Peninsula's pulpwood market. Manager Douglas said that the U.S. Forest Service's planned Borealis sale of 500,000 cords over 15 years was welcomed by Mead, as is the Michigan Conservation Department's willingness to make long-term, large-volume wood sale commitments.

Big Forest Owner

Mead is one of the Upper Peninsula's largest owners of industrial forest lands with 125,000 acres in its Eastern U.P. forest and 240,000 acres in its L'Anse forest purchased from Celotex Corp.; a total of 365,000 acres. It currently buys more wood from suppliers than it has cut on its own lands.

The present Escanaba mill has been operated by Mead since 1942. Its current production of 85,000 tons yearly is of the kinds of light-weight publication papers to be produced on the new machine being manufactured now by Beloit Corp.

Mead's wood provision planning is including study of a wood chipping facility in the L'Anse area to supply pulpwood wood from that area and it is interested in research of the Soo Line Railroad into pulpwood cars which would carry 50 cords of wood. Present capacity is about 20 cords.

Mead also operates white paper mills at Chillicothe, Ohio; Kingsport, Tenn.; and Menasha, Wis., as well as nearly 60 other mills and plants producing technical papers, paperboard, shipping containers, packaging and educational supplies in more than 50 cities in the United States. The corporation had sales of \$633 million in 1966.

Briefly Told

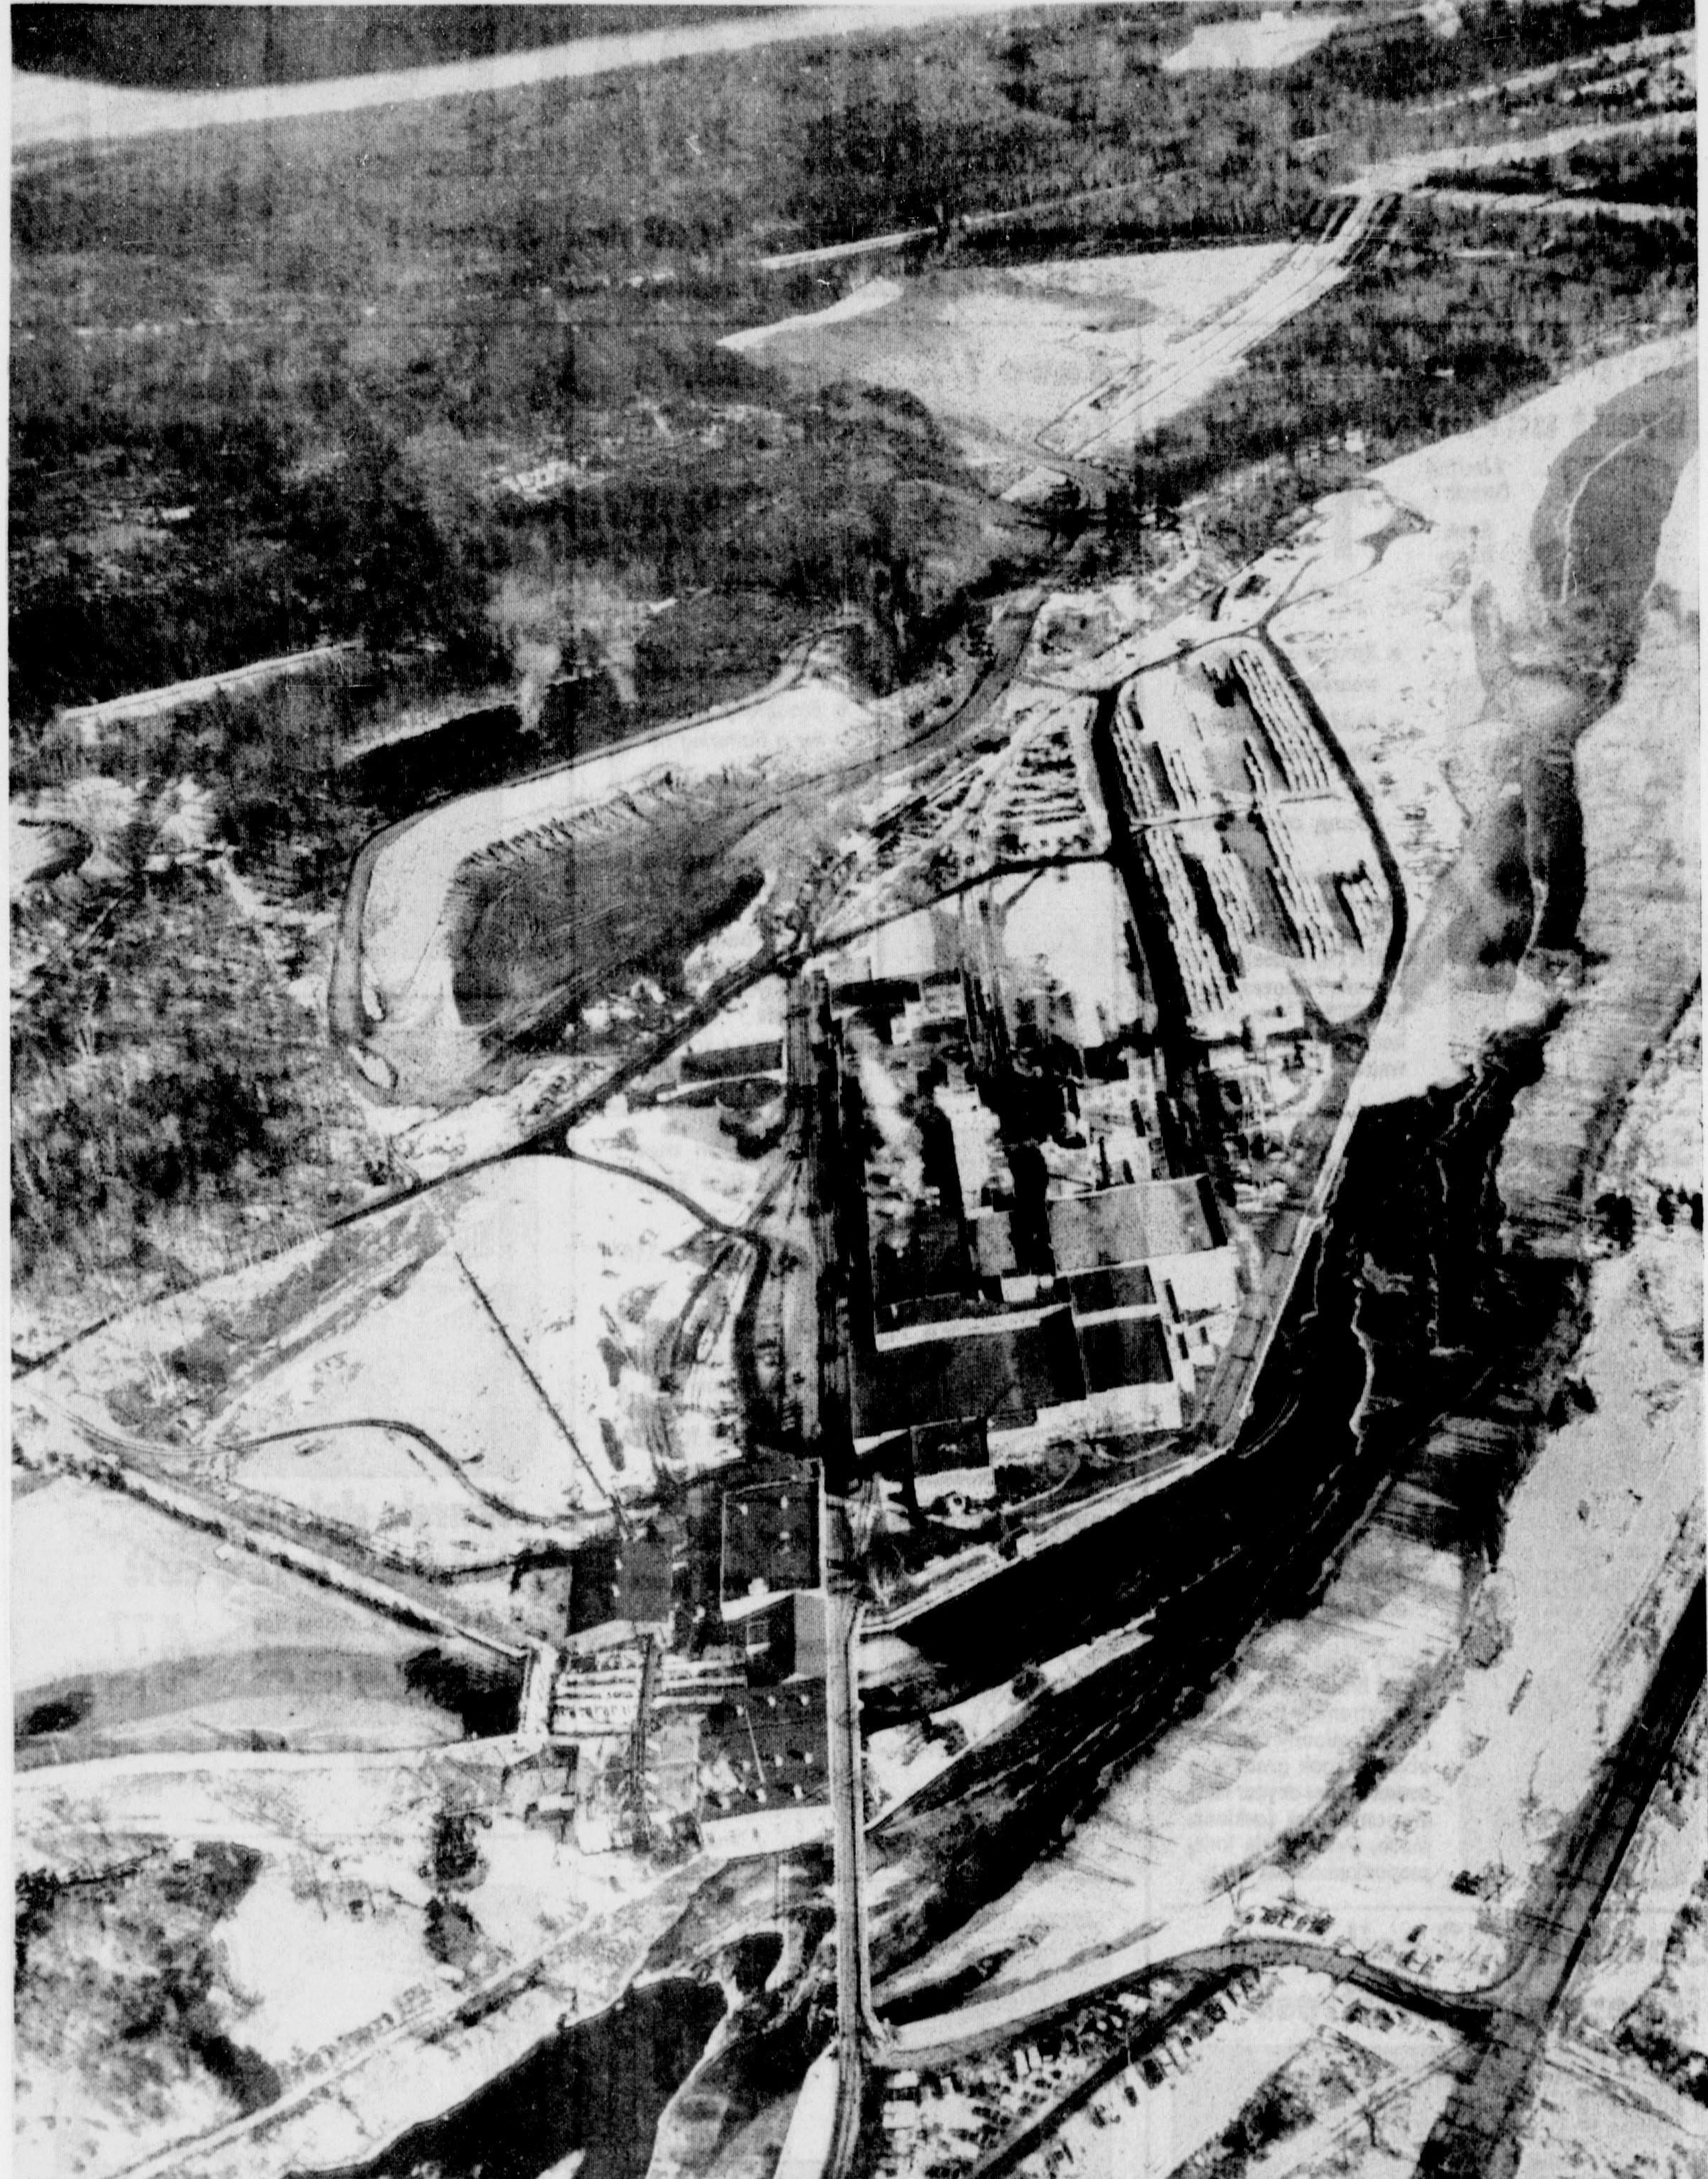

The Amvets Cribbage League will begin play tonight at 7:30 at the Amvets Hall. All players are asked to be prompt.

The Red Buck Archery Club will hold its first meeting of the year Wednesday at 8 p.m. at Club 314. Target shooting will follow the meeting and all archers are welcome.

MEAD CORP.'S ESCANABA DIVISION pulp and paper mill at Groos on the Escanaba River appears this way today with a \$56 million first phase expansion project underway. The Escanaba River is the dark area at bottom and right. Earthmovers are cutting down a hill at midtop left and depositing the borrow in the area above it. The white area at top, right, is the Ken-Mar Outdoor Theater with U. S. 2-41 crossing beyond it. The plant's groundwood pulp mill is at bottom

left and the big addition to the plant to house the No. 3 paper machine, a monster installation a quarter mile long, will be above it and to the left in the white, cleared area and excavated area (still traversed by the piers for the old woodpile towers). The dike at the pulp mill will be removed to clear the plant site and the river arm stopped off upstream with a new dam. The earth work on the plant site by A. Lindberg & Sons, Inc., of Ishpeming is the most

extensive for an industrial installation in the history of Escanaba. The woodyard beside the river at upper center right will be moved to the left when Phase 2 of the expansion provides a large kraft pulp mill on a site above the main structure of the present mill, housing the two present machines and pulping facilities, center. (Daily Press Photo by Bernard Schultz from Jon Thorin Aviation plane)

A BULLDOZER of A. Lindberg & Sons, Inc., of Ishpeming, site preparation contractors for the big expansion project at Mead Corp.'s Escanaba Division pushes trees into a pile for burning in the clearing of a right-of-way for a new

access road to the mill yard from U. S. 2-41. The site preparation is the largest earth moving project in the history of local industry. (Daily Press Photo by Bernard Schultz)

General McDonald Waits Governor's Instructions

LANSING (AP) — Maj. Gen.

Ronald McDonald, removed

from his post as state adjutant

general more than two years

ago by Gov. George Romney

was "available for duty" today,

awaiting instructions from the

governor.

Meanwhile, the state's legal

officers sought to untangle legal

questions and determine just

who is Michigan's adjutant gen-

eral.

The State Supreme Court

ruled Monday that Romney acted

"contrary to law" when he

removed McDonald from his

post in 1965 and that the remov-

al proceedings "are void and of

no effect."

Shortly after the high court's

ruling was announced, a jubilant

McDonald went to National

Guard headquarters at the Lan-

sing armory where he conferred

with Maj. Gen. Clarence Schnipke,

whom Romney had named

adjutant general to replace Mc-

Donald.

Might Resign

There was speculation that if

McDonald is reinstated with

back pay and allowances, Rom-

ney might use his authority to

ask the general to resign and re-

turn with full benefits.

Bushnell indicated that should

Romney take such action, the

general would take no further

legal action.

The attorney also had asked

that all pay, allowances and re-

tirement benefits which were

lost be restored to McDonald.

The general's salary and al-

lowances were estimated at

more than \$20,000 a year at the

time he was removed from of-

fice.

Overturning the governor's ac-

tion in a 5-1 decision, the Su-

preme Court ruled that Romney

removed McDonald under con-

stitutional provision which stipu-

lates that a department head

serves at the pleasure of the

governor.

SALMON'S "EARRINGS"

A tree forms concentric lines for each year of its growth and the salmon adds a layer to its earbone every year in the same manner, so a salmon's age can be determined by the number of its "earrings."

Waterfowl, Bald Eagle Inventory Made This Week

By BOB VOGES

LANSING (AP) — This is the week for waterfowl watching in Michigan—and there will be a special incentive for the bird-watchers to spot bald eagles.

The State Conservation Department and U.S. Bureau of Sports Fisheries and Wildlife are cooperating this week to try to find out how many ducks and geese are wintering in Michigan.

The Michigan count, along with surveys of other sections of North America, will give an idea of the production potential for the spring.

This and other surveys help set the seasons and bag limits for waterfowl shooting in the fall.

Aircraft Used

The winter waterfowl inventory will be made both from the ground and the air.

Airplane spotters will make estimates of the numbers and species of birds in such winter waterfowl areas as the Lake St. Clair-Lake Erie - Detroit River

Garden Peninsula

Home Ec. Club

The Kates Bay Home Economics club met Thursday evening, Jan. 4 at the home of Ida Paulson. After a business meeting a social evening was enjoyed. Guests for the evening were Mary Pardee and Eise Haas. The next meeting will be held at the Louis Farley home on Jan. 18.

Return Home

Mr. and Mrs. John Parsly and son Lloyd of Laughing Gull Pt. have returned home from a 10 day visit in lower Michigan. After spending Christmas in Cheboygan with Mr. and Mrs. Ronald Rakoczy, Mrs. Parsly and Lloyd went on to Ludington where they were guests of Mr. and Mrs. Robert E. Harrington. Lloyd stayed with Mr. and Mrs. Charles Agens a few days. Mr. Parsly returned for them last weekend and spent New Years with the Harringtons.

Ernest LaLonde has been released from Schoolcraft Memorial Hospital after being injured in a one car accident a week ago. John (Tony) Jacques is still confined to the hospital and listed in good condition. James Jacques, driver of the car was released immediately after being treated.

Village Board

The Village Board met on Tuesday, Jan. 2, in the town hall. The next meeting will be held Feb. 6.

Salt was financially important in Ethiopia, Tibet and the Mongol empire, according to the Encyclopaedia Britannica.

Chaplain Post At U-M Filled By Rev. Hillebrand

ANN ARBOR (AP) — The post of head chaplain at the University of Michigan has been assumed by the Rev. Herbert W. Hillebrand, 49, an ordained minister of the United Church of Christ.

The Rev. Mr. Hillebrand fills the position left vacant by the resignation of the Rev. Malcolm B. Ballinger in January 1967.

The Rev. Florence M. Lewis has served as acting head chaplain since then.

There is particular interest this year in bald eagle spottings.

The bald eagle—the national bird—is on the decline and conservationists are concerned about the yearly count.

Nesting Success Cut

Michigan's expert on bald eagles is Sergey Postupalsky of Royal Oak, with the Detroit and Michigan Audubon Societies, who has been conducting his own painstaking surveys on the number of breeding birds in Michigan.

He estimates there are just over 100 potential breeding pairs of bald eagles in Michigan, about 70 per cent of them in the Upper Peninsula.

Postupalsky spent most of this past spring and summer in the field counting bald eagle nests.

He found that although about the same number of eagle pairs nested, their nesting success was down.

He urged the President to invoke the injunction provision of the Taft-Hartley labor law to force the 50,000 striking copper workers to return to their jobs for 80 days.

"The fact that the copper strike has directly contributed approximately \$370 million to our balance of payments problem and the fact that you have proposed the major program designed to preserve our country's financial strength indicate to me that we certainly face a national crisis as a result of the copper strike," he said.

In Service

Marine Lance Cpl. George H. Martinson, son of Mrs. Hilding Martinson, 930 Sheridan Rd., Escanaba, is serving in Vietnam with the 3rd Battalion, 11th Marine Regiment, 1st Marine Division. The mission of the battalion is to provide artillery support to First Marine Division's infantry units engaged against the enemy.

Eagles nesting near the lakes would feed largely on fish. The number of unsuccessful nestings among these birds would seem to bear out the theory that man-made and sprayed chemicals are helping to kill off the bald eagle.

Wells

James Casey, manager of the Phoenix Lumber Co. left by plane Sunday to attend window workshop at Bay Port, Minn.

Janet Plave, daughter of Mr. and Mrs. Robert Plave celebrated her sixth birthday Saturday with a party at her home. Games were played and lunch served. Guests included Sue Archambeau, Colleen Casey, Cathy Heyson and Cathy and Sandy Lemerand.

U.S. Automakers Push Production

DETROIT (AP) — U.S. automakers were reported by Automotive News Monday to have scheduled the heaviest January

per cent above the 1,872,914 cars produced in the January-March span a year ago and would be second only to the 2,561,885 rolled off assembly lines in the first three months

of record setting 1965. A January production goal of 875,000 cars would top the 827,197 in January, 1965. Goals for February and March are 823,000 and 832,000 respectively.

Game Plenty Gets New Wallop With Pheasants

By Lee Smits

The ups and downs of wild-life populations are of great concern to a lot of people. To hunters and fishermen, of course. To professors of biology and to professional game and fish management men, also to industry and business serving sportsmen.

There will always be a certain amount of mystery connected with fluctuations in the supply of fish and game. Some dramatic changes can be explained. The buffalo vanished from the western plains through the combination of commercial killing, fencing the range, taming the land. Michigan deer got their big boost with the second-growth following hardwood logging. Slumps in the deer population might have been prevented had control measures been introduced early—the killing of does and fawns to avoid over-browsing and resultant die-offs.

Down go pheasants. Hunters return from areas that have yielded birds year after year and reports of hard work for man and dog, and few if any roosters taking to the air.

From all accounts, pheasant hunting isn't due to register any dramatic improvement in the years ahead.

Dr. Donald W. Douglas, who recently became head of the Conservation Department's game division, is a notable ornithologist. He has given close study to all species of Michigan birds, and particularly to the

ring-neck pheasant, which ranks first in popularity among our game birds.

Ring-neck pheasant were introduced into eastern Michigan more than 70 years ago, not more than 25 years after they had been imported from Asia and released on the Pacific Coast.

Not too much was known about the introduced pheasant but a lot was learned within a few years. One Detroit millionaire spent large sums trying to establish pheasant in Ogemaw County before it was found that pheasant will not inhabit woodlands. They demand rich, black loam. They refuse to settle in the southern states.

There are areas in Michigan, with rich black loam—the oak opening prairies of southwestern counties—but pheasant won't stay there. Biologists have theorized that a deficiency of calcium in the soil does not provide a balanced diet for these discerning birds.

Year after year the total harvest of Michigan pheasants exceeds a million. Not only has the species established itself, it has also learned how to cope with gunners and dogs. Pheasants know that they are safer on the ground than in the air and they will run ahead of a posse of hunters from field to field all day if not intercepted.

This is what Dr. Douglas has to say about the pheasant prospect.

"The pheasant thrives on cultivated land," he explained, "yet improved farming methods are tough on birds. Pesticides may be damaging to pheasant. We know for sure that chemical weed-killers are much worse. Pheasants take to corn-fields and they keep healthy on a diet of corn, but weeds are a necessity for nesting cover, winter shelter and possibly as a supplemental source of food. So clean farming, business-line farming, hurts their chances."

"Pheasants nest within the limits of a city like Detroit, yet they require a certain amount of open country. Open country in southern Michigan keeps diminishing. Subdivisions, freeways, market centers, motels, schools—all these products of civilization cut down pheasant habitat."

We didn't ask Dr. Douglas a standard question, "Why doesn't the state of Michigan

produce pheasants on game farms and release them to stock cover when there's a scarcity?" It has been repeatedly demonstrated that pen-reared birds are a poor investment. Most of them perish before they can reproduce.

Why isn't a closed season imposed when pheasant are down in numbers?

Many states have discovered that it does no good to stop shooting. When males only are killed, there is never a shortage of roosters.

Since pheasant require the most expensive type of farmland, and since Michigan farmers are businessmen, interested in profits, there is not much hope for a general improvement in pheasant habitat, unless farmers find out that they can cash in on the game their lands produce.

There are some 60 shooting preserves in Michigan including several in the Upper Peninsula, where pheasant are released ahead of the guns. They afford good sport, excellent dog work, for those who can afford it.

Pheasant populations are, of course, affected by extremes in weather—heavy snow, freezing rain, spring flooding. Marsh fires destroy choice cover.

The Michigan pheasant is

here to stay, but successful pheasant hunting can't be guaranteed every year for the city sportsman, unless he can own or manage a farm in good pheasant territory.

Back Rain Beetle For Insect Honor

CORVALLIS, Ore. (AP) — The Oregon rain beetle has won the backing of the head of the Oregon State University entomology department as the top candidate for the official state insect.

Paul Richter had been campaigning for the snake fly. But he switched his allegiance to the rain beetle, "because of its adaptation to the Oregon climate."

The rain beetle, however, has one drawback. It feeds off the roots of the Douglas fir, which is the Oregon State tree.

LOOKING AHEAD to the Olympics after next, the 1972 games to be held in Munich, Germany, the Bavarian state mint has begun production of official medals. The obverse depicts a kneeling archer and the reverse carries the Olympic emblem and inscription.

Mrs. Johnson To Present Lecture

WASHINGTON (AP) — A committee headed by Secretary of Agriculture Orville L. Freeman didn't have to look far in selecting the recipient of a new award—only across town to the White House.

The committee named Mrs. Lyndon B. Johnson Monday to give the first B.Y. Morrison memorial lecture on a date not yet set. The lecture series will honor the plant explorer, landscape architect and writer who died in 1966.

Nearly two million tourists visit the White House every year.

CORNELL TOWNSHIP BOARD meeting Monday night at Cornell authorized publication in the Escanaba Daily Press of notice of its intention to use the Michigan Industrial Development Revenue Bond Act to finance a \$56,675,000 expansion of Groos mill of the Escanaba Division of Mead

Corp. From left seated: Supervisor Grey Knaus; Mrs. Dorothy N. Woodard, clerk; Atty. Nicholas P. Chapekis, counsel for the township; standing: LeRoy White, trustee; John F. Terrien, trustee, and Wallace D. Campbell, township treasurer. (Daily Press Photo)

Cornell Township Bonds For Mead Mill \$56.6 Million Financing OK'd

The Cornell Township Board, meeting in the township hall at Cornell Monday evening, took a historic step in ordering publication of its intent to issue \$56,675,000 in development bonds to finance the first phase of a huge expansion of the Groos mill of Escanaba Division of Mead Corp.

The action was under authorization of the Michigan Industrial Development Revenue Bonding Act, which the City of Escanaba is using to finance the \$12.3 million Escanaba ore terminal planned by the Chicago & North Western Railway.

The action on the resolution of intent was unanimous. Voting for it were Cornell Township Supervisor Grey Knaus, who presided; Dorothy N. Woodard, clerk; Wallace D. Campbell, treasurer, and LeRoy White and John F. Terrien, township trustees.

Steps In Bonding

Atty. Nicholas P. Chapekis, counsel for the township, explained the bonding act steps to the board, which recessed its meeting until Thursday after completing action on the bonding to care for any technicalities which might develop.

The steps in the bonding procedure, which gives the township bonds tax-free status, (which has been approved by the federal Internal Revenue Service) start with the declaration of intent ordered Monday night and to be published in the Escanaba Daily Press on Wednesday.

After publication there is a 45-day period in which township electors can petition for a vote on the issue. Such petitions would require signatures of 5 per cent of Cornell Township voters, who number about 200. If there is no petition for a referendum the bonding process proceeds. If there is a petition, an election is held to authorize the bonding.

State Approval

Supervisor Knaus said the board was hopeful that there would be no petition to delay authorization for the bonding because of the great impact the enlarged pulp and paper mill will have upon employment in the immediate area and the economy of a much larger area.

Next step after township ap-

proval of the bonds would be approval by the Michigan Municipal Finance Commission.

Next step would be a lease agreement between Cornell Township, which would acquire the site and construct the mill facilities through its agent, the Rust Engineering Co., and Escanaba Paper Co., a wholly-owned subsidiary of Mead Corp. Mead Corp. would guarantee the bonds.

Cornell Township would lend only its tax-free bonding privilege as an eligible local government under the Michigan Revenue Bonding Act, and would not be responsible for the bonds, which would be a responsibility of Mead Corp.

Mead To Acquire

Upon amortization of the bond issue Mead would become owner of the facilities constructed under the bond financing. The lease payments amortize the issue.

During the period of bond retirement the building financed by it are on the tax roll and Mead pays the taxes as the lessee.

The Michigan Industrial Development Revenue Bond Act was signed by Gov. George Romney in 1963. The act authorizes municipalities and other local governmental units to issue revenue bonds, the funds from which are used to acquire industrial facilities for the purpose of leasing them to industrial firms.

The Michigan Supreme Court approved the constitutionality of the act in a test case brought when the City of Gaylord issued bonds to finance construction of U.S. Plywood Corp's new plywood mill at Gaylord. The Michigan Legislature amended the act to permit financing of machinery as well as industrial buildings.

NY Tenement Fire Kills 13

NEW YORK (AP) — Flames raced through a Brooklyn tenement in the predawn hours today, forcing scores of persons to flee in below-zero cold and leaving 13 dead. All but one member of two families perished.

Dead in the city's worst fire since 46 died aboard an aircraft carrier in 1960 were Mrs. Modesta Diaz and her five children, aged 3 months to 9 years; Francisco and Juana Mojica and their four children, aged 4 to 9 years, and 85-year-old Victoria Moreno, the grandmother of the Mojica children.

Francisco Diaz, 29, the only surviving member of his family, said he was watching television with his children when he saw smoke flowing under the door of his second-floor apartment. In minutes the building was engulfed in flames, he said.

Firemen battled the five-alarm fire for 4½ hours before getting it under control. The flames were fueled by paper cartons on the first floor of the five-story building.

The fire marked the worst New York City fire disaster since 46 died in a blaze aboard the aircraft carrier Constellation at the New York Navy Yard in Brooklyn on Dec. 19, 1960. Twelve firemen were killed in a blaze in October 1966.

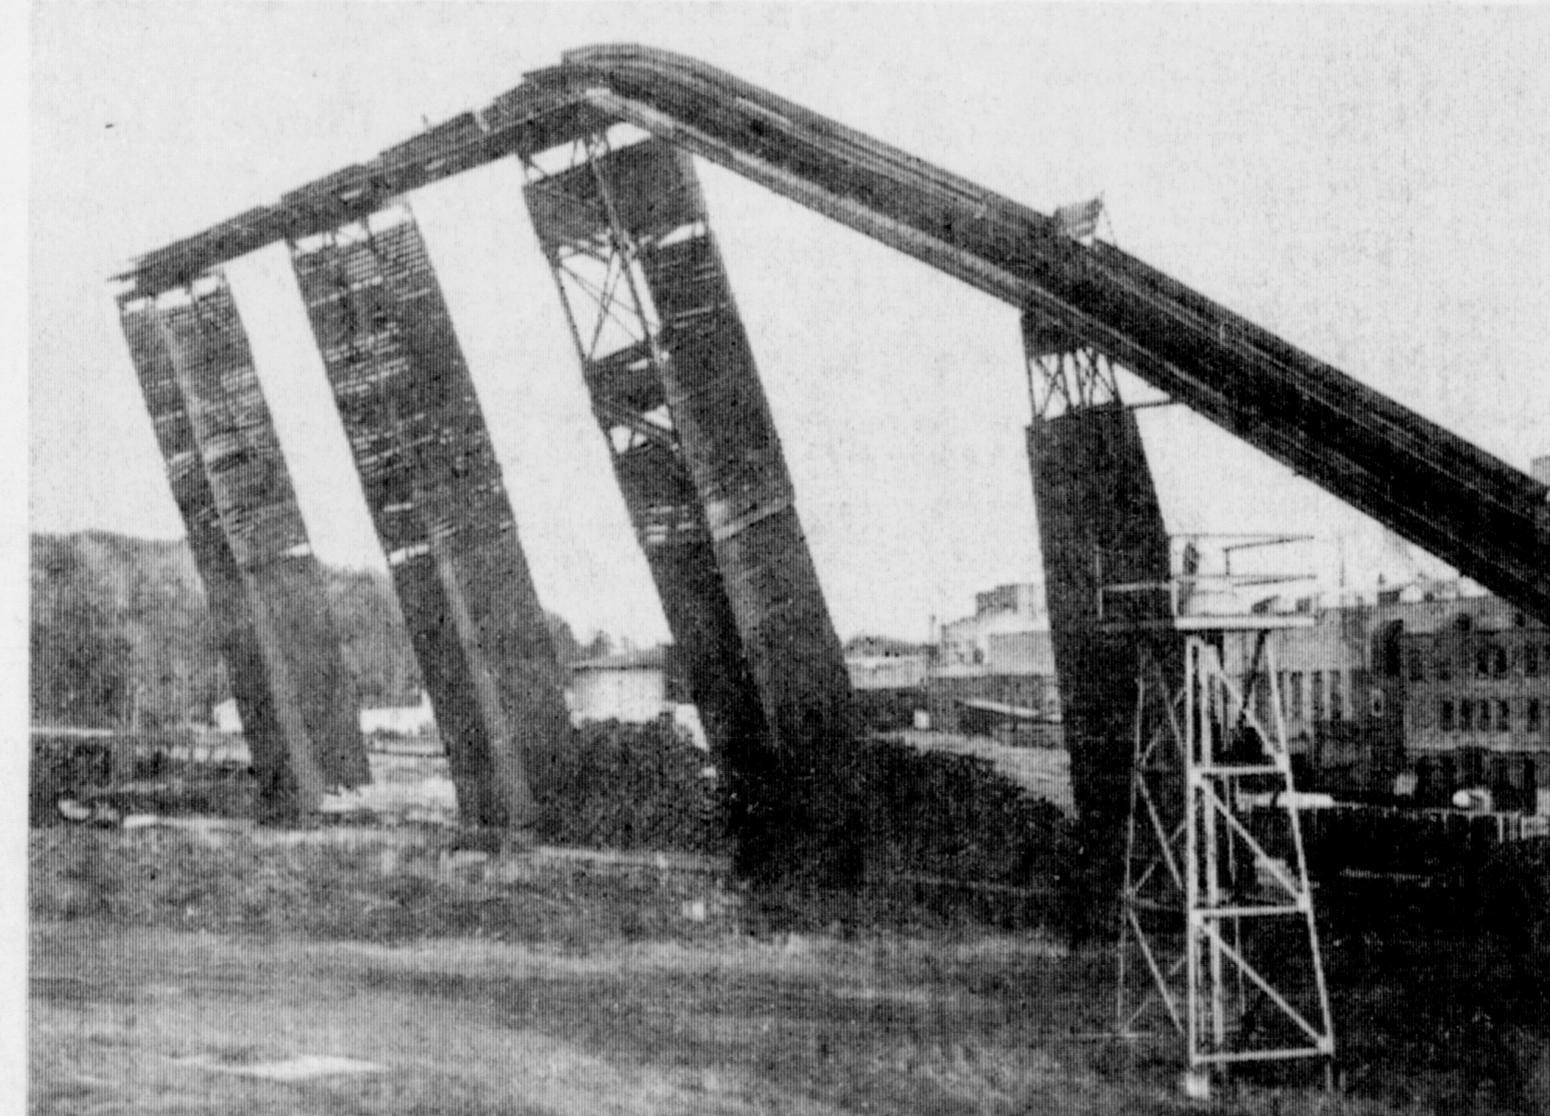

Gen. Trujillo Dies In Florida

MIAMI, Fla. (AP) — Gen. Jose Garcia Trujillo, 57, former military chief in the Dominican Republic and nephew of the assassinated dictator, Rafael Trujillo, died here Sunday of a stroke, his doctor said Monday.

In 1962 Garcia Trujillo shot himself in the head but the bullet missed his brain and he recovered.

Dr. Warren Lindau said his death was not connected with the suicide attempt. Garcia Trujillo had been in retirement in Miami since he fled his home in 1961.

Leopold Stokowski founded the New York Symphony Orchestra.

DOWN GO THE TOWERS that supported a wood conveyor system for short bolt pulpwood storage at the Groos mill of Mead Corp's Escanaba Division on the Escanaba River. The removal of the steel towers and conveyor was done by B. A. Coplan Iron & Metal Co. of Escanaba in clearance of the site for the more than quarter mile long building that

AN EARTH MOVER carries yards of earth for dumping on the road construction project at the Escanaba Division plant of Mead Corp. on the Escanaba River. The new access road on the north side of the Escanaba River is being constructed by A. Lindberg & Sons, Inc., of Ishpeming and is nearly

completed. It is a part of the site preparation for Mead's \$56 million expansion of its Groos mill in the first phase of a three phase project. A huge third paper machine and power plant enlargement are major items. (Daily Press Photo by Bernard Schultz)

Cornell Township Bonds For Mead Mill

Gorton Is Choice To Succeed Holt

CANBERRA, Australia (AP) — Sen. John Grey Gorton, described by colleagues as hard working, good humored and sharp in debate, was elected leader of the Liberal party today, assuring his installation as Australia's next prime minister.

It was expected that Gorton would be sworn in as prime minister Wednesday. Since Prime Minister Harold E. Holt disappeared while swimming in rough surf Dec. 17, the government has been headed by his deputy, John McEwen.

Gorton, 56-year-old minister for education and science, had been favored over three other candidates to succeed McEwen. The latter is leader of the Country party, the junior member of the Liberal-Country party coalition that has governed Australia since 1949.

Gorton's election is unlikely to result in any change in Australia's foreign policy, particularly in its military contribution to the Vietnam war and its support of U.S. policy there.

The new government leader told a televised news conference shortly after his election by the Liberal party's 81 members of the House of Representatives and the Senate: "Tomorrow I have no doubt that we will continue in this country as we

should—arguments, perhaps quite bitter arguments, as in goals, as to differing priorities in differing fields of national endeavor."

His countrymen "can be sure that I will try my best and I will look to them for strength successfully to conclude what we start," he said.

Candidates who ran against Gorton were Foreign Minister Paul Hasluck, 62; Leslie Bury, minister for labor and national service, and Billy Snedden, 41, minister for immigration. Bury and Snedden were eliminated on the first ballot, and Gorton won on the second.

The voting was over in 25 minutes.

Gorton capped his education with a master of arts degree in history from Oxford, taken with honors. He was a fighter pilot in World War II and was shot down once, off Singapore in 1942. He is married to the former Bettina Brown of Bangor, Maine. Mrs. Gorton has kept her American citizenship so far but says she'll gladly become an Australian now if her husband suggests it.

Moslems observe their Sabbath on Friday. They also celebrate the creation of Adam on a Friday.

Cold Sets New Marks In East

By The Associated Press

Bone-chilling cold stung the Northeast today and sent a sharp chill through the south as well. Schools closed in much of New England as the region shivered in its coldest weather of the season.

During the period of bond retirement the building financed by it are on the tax roll and Mead pays the taxes as the lessee.

The Michigan Industrial Development Revenue Bond Act was signed by Gov. George Romney in 1963. The act authorizes municipalities and other local governmental units to issue revenue bonds, the funds from which are used to acquire industrial facilities for the purpose of leasing them to industrial firms.

Gladstone Gives Go-Ahead Sign To Housing Unit

GLADSTONE — The City Commission gave the Housing Commission the go-ahead signal Monday on the low-rent housing project after being informed that \$706,619 had been awarded the city.

The commission met in regular session at the City Hall.

Amount of the loan is 10 per cent less than the total cost of \$785,000, which City Manager H.J. Henrikson said was normal procedure. The balance will be awarded on completion of the project, which will entail no expense to the city, he said.

Henrikson said the final planning meeting will be held in Chicago Feb. 5.

New Rates Asked

City Attorney Clair Hoehn was asked to work out a special classification for electrical rates for the Housing Commission in order to provide electrical cooking for the senior citizens. Both the Housing Commission and the City Commission favor the safety of electricity over open flame gas cooking for the project.

Members of the Housing Commission said the commission feels strongly that electricity is safer for senior citizens and that an effort should be made to meet rate requirements of the federal government. The Housing Commission estimates use of about 14,000 kilowatts monthly and a rate of 1.75 cents per kilowatt is required by the federal government.

Garden Peninsula

Mr. and Mrs. George Copess returned to their home in Garden Thursday after visiting over Christmas and New Years with their daughter and family, Mr. and Mrs. Robert Rush of Ionia.

Grange Meets

The Kates Bay Grange met Saturday, Jan. 6, at the Rufus Spaulding home. During the business meeting a discussion was held on the possibility of the Grange and Farm Bureau organizing a Credit Union for the Garden Peninsula. A new member was introduced, Mrs. Mildred Haas of Kates Bay. During the social that followed Mrs. Lawrence Anderson and Rufus Spaulding were honored on the occasion of their birthdays. The date of the next meeting will be announced later.

Hospital

Wallace LaTulip is a surgical patient at the Schoolcraft Memorial Hospital. His room is 30-B.

Cheri Jo Davis of Manistee is giving group guitar lessons in the Garden area. The group meets on Saturday afternoons at 1:30 p.m. The meetings will be held at the Garden School.

Mr. and Mrs. Joel Peterson of Fairport left Saturday, Jan. 6 for Flint, where they will make their home. The newlyweds reside at Lot 62, Mary Lane, Diane Trailer Court, Mount Morris, Mich.

Think small. Feed one hungry person

Don't be overwhelmed by the statistics of world hunger. The figures are only a multiplication of individual people. Think in terms of feeding at least one person. Your contribution, joined with others, adds up to millions fed through CARE's Food Crusade.

Every dollar sends a food package—your personal gift to war and famine victims in Asia, refugees in the Middle East, hungry children and adults from Latin America to Africa. CARE uses your money for packing and delivery, and to buy other staples.

You save lives, help the hungry ultimately feed themselves. Roughly, \$1 serves a child a daily meal for 3 months . . . \$10 is 5-months "pay" in family packages, while a man builds village schools and roads . . . \$100 sends over a ton of food. Give as big as you can.

CARE

Food Crusade

860 First Ave., New York 10016

or your nearest CARE office

Here is \$____ to feed the hungry.

From: _____

Make checks out to CARE. Contributions are tax-exempt.

Every dollar sends a food package

Your receipt shows where your gifts went. CARE's American staff members supervise deliveries in: Afghanistan, British Honduras, Ceylon, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Gaza, Greece, Guatemala, Haiti, Honduras, Hong Kong, India, Indonesia, Iran, Israel, Jordan, Liberia, Macau, Nicaragua, Pakistan, Panama, Philippines, Poland, Sierra Leone, South Korea, Tunisia, Turkey, South Vietnam, Yugoslavia.

Five Arrested In Store B&E

A Perronville man, two of his sons and two other persons, one of them a juvenile, were arrested by State Police officers Monday night and charged with the breaking and entering of Sodergren's Grocery, Rte. 1, Escanaba, last Thursday night.

Scheduled to be arraigned on breaking and entering charges today were: Clifford Boggs Sr., 43, of Perronville; his sons, Douglas, 20, of Perronville, and Ronald, 17, of 500 1st Ave. S., Escanaba, and Rodney Bingman, 18, of Rte. 1, Escanaba.

Officers said another 16-year-old boy also was involved in the breaking and entering.

The four older men will be arraigned before Justice Edward Goldsworth of Gladstone. They were lodged in the Delta County jail last night.

The breaking and entering of the store was discovered last Friday morning when owner Lloyd Sodergren, Rte. 1, Escanaba, came to open for business. A back door in the building had been left open in severe cold, causing an estimated \$200 damage when a water pump froze.

In addition, about \$11 in change, beer, wine, meat, cigarettes and assorted other groceries were missing.

Closed Circuit TV Gives View Of Toastmasters

The Bay de Noc Toastmasters Club met Monday evening at Bay de Noc Community College and the program utilized closed circuit TV which enabled the speakers to "see themselves as others see them."

Invocation was given by Roger Jewell and the toastmaster was John Stoll. Table topics, dealing with the unusual weather and the holiday festivities, were directed by Harland Lippold. Speakers were Fred Fisher, Dick Powell and Tom McDermott. Master evaluator was Jim Wren, assisted by a panel consisting of William L. Miller and Art Brien.

Beginning Feb. 5 the Club will sponsor "Speechcraft" for eight consecutive Monday evenings from 7 to 8:45 p.m. The fee for the entire course is \$5 to cover materials and administrative expenses. Interested persons may contact any club member for details.

Rock

John Norman, Maple Ridge Township supervisor, will be at the Rock Town Hall Thursday, Jan. 11 from 9 a.m. until 2:30 p.m. for senior citizens and veterans to file their 1967 homestead tax exemptions. Persons are to bring their 1967 tax bill. Veterans may file their affidavits also. They are to bring their check number.

Mr. and Mrs. Sulo Ruotsala and Matt visited relatives in Cincinnati recently. Mike Ruotsala and Miss Sarah Stayer visited with Sulo Ruotsala before returning to the University of Wisconsin at Madison, Wis.

Players Intrigue, Appeal In Plays

The Players de Noc presentation of four one-act plays can be summed up as intriguing and appealing.

The plays all deal with some aspect of life and people as they have come to be today.

In viewing the plays Monday night at the Escanaba Area High School auditorium, the audience was able to see something in each that is real, something that hits close to home, while enjoying the polished performances of the cast, the effective scenery and the appropriate costumes.

The plays will be presented again tonight at 8 p.m.

"A Phoenix Too Frequent," written by Christopher Fry, is directed by Mrs. Raymond Godmer. Basic theme of the play is one of life and death; a tragic, sad theme brightened with necessary catches of humor that revive the sometimes listless dialogue.

Performance A Treat

The play, which was adapted to a multiple reading, included cast members, Mrs. Kenneth Benson, Mrs. Godmer and Richard Rinehart.

Rinehart's professional performance can be compared to a Tommy Smothers act in the time of Gods and Goddesses in ancient Rome. In fact, seeing the distinguished President of Bay de Noc Community College dressed in a Roman minotaur was quite a treat in itself.

"The Leader," by Eugene Ionesco, is a "serious commentary on the absurdities of the follow-the-leader society" that is becoming prevalent today. Under the effective direction of Peter Adamini the play presents a unique view of life. Richard Hanson as the an-

GI HULA is performed with basket hoop picked up along march in Vietnam.

Briefly Told

Escanaba police have issued

traffic court notices to Albert H. Giroux, 602 Stephenson Ave., driving too fast for conditions; and Carlton G. Nelson, 524 S. 12th St., speeding.

Two cars were damaged, but

there were no injuries in an accident on US-2 and 41 near County Rd. C-21 about 7:30 a.m. today, Delta County Sheriff's officers reported.

Deputies said a car driven by Joseph L. Goudreau, 327 Delta Ave., Gladstone, struck the rear of a car driven by James T. Orr, 502 Ludington St. Orr had slowed down as a car in front of him made a right turn, officers said, and Goudreau was unable to stop because of slippery pavement.

National Guard Shifts Command At Gladstone

A change of command in the National Guard unit at Gladstone effective with the Guard reorganization Feb. 1 was announced today.

Capt. George Anderson of Escanaba, who has been commander of the present Company E, 107th Engineers, for the past seven years, and a member of the unit since 1946, will be reassigned to Headquarters Company at Ishpeming to serve as liaison officer and assault river crossing and bridge advisor.

He will be succeeded in the Gladstone command by Capt. Stephen J. Fraddo of Escanaba. Fraddo has served as a platoon leader and recently as battalion equipment officer.

Under the reorganization, the Gladstone unit will become Company C with a new strength of 140 men.

The 107th Engineer Battalion has absorbed the three artillery batteries of the 182nd Field Artillery of Kingsford, Iron River and Ironwood. All of the 182nd's men and officers will be assigned to the 107th Engineers, bringing the Engineer unit strength to over 700 men.

Wake Up Your PERISTALSIS And Be Your SMILING BEST

Peristalsis is the muscular action of your digestive system. When peristaltic action slows down, waste materials can build up in the lower tract. You can become irregular, uncomfortable, stuffed.

The unique laxative formula of today's Carter's Pills gives effective temporary relief of the irregularity by activating the slowed-down muscles of the lower tract and stimulating peristalsis.

So if you're sluggish due to irregularity, take Carter's Pills to wake up your peristalsis and you'll bounce back to your smiling best.

Millions of satisfied users take Carter's Pills for effective temporary relief of irregularity. Why don't you? 49¢. Adv.

Bible Study Meetings Begin Tonight

Weekly Bible study meetings will be held in private homes of the members of the Evangelical Covenant Church, beginning Tuesday evening. The Book of Ephesians has been chosen as the subject for discussion and study by Pastor James Swan.

The first meeting will be held at the home of Miss Leona C. Anderson, 1006 N. 18th St.

On Jan. 23 the group will meet at the home of Miss Ruth Sawyer, 1201 7th Ave. and on Jan. 30 the group will meet at the home of Miss Joyce Lyon, 1305 Ludington St.

Keep Skirts Up, Fashion Prices Down This Year

NEW YORK (AP) — If skirts go down, prices will go up, and if waistlines go in, then hips may spread out.

That is the way things looked Thursday at the spring style previews for the fashion press conducted by the New York Couture Group.

As a model in a \$325 cotton coat and dress strode the runway, manufacturer Vincent Monte-Sano said that new union contracts and higher fabric costs had already driven the cost of women's apparel up by 20 per cent.

By spring, he said, the high cost of being chic may soar to nearly a third more than it was last year. And that is in the age of the miniskirt, which does not take much footage to cover their requirements.

"God help us if hemlines go down," Monte-Sano said, speaking only from the point of view of prices. "Adding a half yard or a yard to those bulky miniskirts will really add to their cost."

To men who pay the clothing bills at any rate, that seemed to be a practical reason for keeping the legwatching game going strong.

If women's waistlines grew on the average by two inches without the constriction of belts,—as it was reported Wednesday that they had—then the seating equipment seemed due for expansion.

Mrs. Herbert D. Iverson (Gordon Nelson Studio)

Susan Backlund Bride Of Herbert D. Iverson

Holy Family Church in Flat Rock was the setting Saturday, Dec. 16 for the single ring ceremony uniting in marriage Miss Susan Joan Backlund of Cornell and Herbert Dennis Iverson of Rte. 1, Escanaba.

Rev. Raymond Pryzbyski heard the solemn exchange of vows at 2 o'clock in the afternoon. The bride is the daughter of Mr. and Mrs. Elroy Backlund of Cornell and parents of the bridegroom are Mr. and Mrs. Earl Iverson of Rte. 1, Escanaba.

Silk Organza

The bride chose for her wedding a floor length silk organza gown fashioned with a lace bodice, long tapered lace sleeves and a sequined trimmed neckline.

A sequin trimmed crown held her shoulder length veil of illusion and she carried a bouquet of red and white carnations trimmed with holly.

Madam of honor for her sister was Patricia Backlund and bridesmaids were Toni Backlund, sister of the bride and Caroline Iverson, sister-in-law of the bridegroom.

The newlyweds are now at home at 520 S. 18th St. The bride is a 1967 graduate of Perkins High School and Mr. Iverson graduated from Escanaba Area High School in 1965.

The wedding reception was held during the afternoon and evening at the Eagles Hall.

The newlyweds are now at home at 520 S. 18th St. The bride is a 1967 graduate of Perkins High School and Mr. Iverson graduated from Escanaba Area High School in 1965.

The wedding reception was held during the afternoon and evening at the Eagles Hall.

The newlyweds are now at home at 520 S. 18th St. The bride is a 1967 graduate of Perkins High School and Mr. Iverson graduated from Escanaba Area High School in 1965.

The wedding reception was held during the afternoon and evening at the Eagles Hall.

The newlyweds are now at home at 520 S. 18th St. The bride is a 1967 graduate of Perkins High School and Mr. Iverson graduated from Escanaba Area High School in 1965.

The wedding

In This Corner

With RAY CRANDALL

Crystal Falls was one of three Upper Peninsula teams to fall from the undefeated list last weekend as the Trojans bowed to Niagara, 88-87, in a Menominee Range Conference upset . . . Less of Gary Sacheck, 6 foot 6 inch center who sprained an ankle in the third period, proved costly for the Trojans who led by a 50-43 margin at halftime . . . A field goal by Jim Pilon with eight seconds remaining in the game gave Niagara the decision and a 4-4 season record . . . Crystal Falls had won seven straight previous starts.

Cederville knocked off DeTour in an even more stunning upset in Eastern conference action, 57-45 . . . Winner on only one of seven previous games, the Trojans were in command throughout the game as Jim Edalchi and Dave St. Onge teamed up for 30 points . . . DeTour had chalked up seven straight victories before the setback.

St. Ignace was also the victim of a startling upset in bowing to downstate Alpena Catholic, 70-62, in a Straits-Huron contest . . . The victory was the first in four conference games for Alpena while Coach Gene Shank's Saints were 3-0 in the loop and 6-0 overall . . . The teams were tied from the field with 26 goals apiece but Alpena flipped in 18 free throws off 24 St. Ignace personals for the margin of victory.

Iron Mountain bounced back from its thrashing at the hands of the Eskimos to trim Norway, 75-67, in Menominee Range action . . . Brian Ouimette paced the Mountaineers to their third conference victory with 27 points and Rudy Steiner returned to the lineup after a bout with the flu to score 10.

Suomi College of Hancock nipped the Michigan Tech junior varsity team, 95-94, with former Rock star Dave Vertanen hitting 27 points for individual scoring honors . . . Jon Cameron, ex-Manistie ace, chipped in 20 points for the Lions . . . Bernie Larson, former Escanaba player, connected on five field goals and five free throws for 15 points for the Huskies.

Dollar Bay spoiled Ontonagon's first venture on its new basketball floor, 60-42 . . . Coach Harvey Filippula's Blue-bolts ran their season record to 6-1 behind a 24 point scoring performance by Mike Kuusisto . . . Dan Floyd was the lone Ontonagon player to reach double scoring figures with 18.

Dean Kent of L'Anse, Upper Peninsula prep scoring leader, tied the Copper Country Conference single game scoring record by pouring in 52 points in a 102-66 decision over Calumet . . . Kent, who tallied 25 points in the final period, matched the conference record which was set by Roger Ryynanen of effers in 1955.

Unbeaten Ishpeming had its hands full before edging Marquette, 89-83, in a Great Lakes Conference clash . . . Marquette outscored the Hemmies from the field, 35 buckets to 31, but Ishpeming converted 26 of 32 free throw opportunities to keep its victory string alive . . . Marquette hit on 13 of 20 gift shots . . . Larry Ruffatto of Marquette and Ed Stima of Ishpeming shared scoring honors with 27 points.

Menominee, Holy Name's road to tonight, reeled off its seventh victory of the season and 15th straight extending back into last year by romping over Marinette Catholic Central, 64-31 . . . The Maroons took a 10-2 lead in the first period and were never threatened as senior Pat Miller tossed in 10 field goals and eight free throws for 28 points.

Vince Cautious, Lauds Oakland's Defensive Team

FORT LAUDERDALE, Fla. (AP) — Vince Lombardi, boss of the National Football League champion Green Bay Packers, must be getting soft toward the rival American Football League.

Lombardi was kind and cautious Monday in calling the Oakland Raiders, opponents of the Packers in Sunday's Super Bowl game, "very fine and very quick on defense."

He was disappointed because Green Bay and Oakland exchanged game films of only their last three games of the season.

"I would have preferred a broader swap," Lombardi told a news conference. "But if I hadn't agreed, I'd be what they accuse me of . . ."

Last year Green Bay and Kansas City swapped films of "any" three games and Green Bay won the game 35-10.

Touchdown Club Honors Champs

WASHINGTON (AP) — Southern California, the nation's No. 1 team, and Fairmont State College of West Virginia will be honored by the Washington Touchdown Club Saturday night at its annual awards banquet.

Southern California, with a 9-1 regular season record and victory over Indiana in the Rose Bowl, will receive the award as the outstanding major college team. Trojan Coach John McKay will accept the award for his team.

Fairmont, undefeated and unit in 11 games, will receive the award as the outstanding small college team of the year. Fallon Clegg, Harold "Deacon" Duvall will accept the award.

Last year's winners were national champion Notre Dame and Waynesburg, Pa., College.

Southern California, winner of the major college award in 1962, joins Michigan State, Alabama and Oklahoma as the only other double winners.

Menominee Rated Tops In First Poll

By The Associated Press

A pair of defending state champions won top spots in the first Associated Press high school basketball poll of the season today.

Detroit Pershing's Doughboys, who won the state championship at East Lansing last March, were picked the top Class A team in Michigan by the AP's panel of sports writers and sportscasters.

Menominee, unbeaten in seven games, picked up where it left off last year in Class B. The Maroons won it all last spring after losing six games in regular season play.

Little Detroit All Saints, with all five starters back from last year's squad which lost in the finals to champion Mount Pleasant.

Menominee, unbeaten in seven games, picked up where it left off last year in Class B. The Maroons won it all last spring after losing six games in regular season play.

Little Detroit All Saints, with all five starters back from last year's squad which lost in the finals to champion Mount Pleasant.

New Basketball All-Star Game Is On Tap Tonight

INDIANAPOLIS, Ind. (AP) — The new American Basketball Association — with a multicolor ball and three-point basket — stages its first All-Star game here tonight.

The most eye-catching of the ABA's innovations — the red, white and blue ball — will get its first major television exposure in a color telecast to the league's other 10 cities, plus Los Angeles and New York.

More than 2,000 tickets have been sold by the host Indiana Pacers for the game in the 14,900-seat Hinkle Field House of Butler University.

Preceding the game were league meetings among owners, coaches and officials, and a noon luncheon featuring the Rev. Bob Richards, two-time Olympic pole vault champion, as guest speaker.

Among points discussed by league owners were the possibilities of arranging telecasts of

future league games this season and the setting of postseason playoff patterns.

Nothing is expected to be determined about the telecasting until an evaluation is made of the All-Star showing which will be handled by KTTV of Los Angeles.

The playoff pattern will include the top four teams in the Eastern and Western divisions, with No. 1 team playing No. 3 and No. 2 meeting No. 4 in best-of-5 series. The title series will be best-of-7.

The three-point basket, made from beyond 25 feet, has been a headline-maker for the ABA.

The most electrifying shot was when Indiana's Jerry Harkness heaved the ball 92 feet for a three-pointer that beat Dallas in the final second.

Fred Lewis, another Indiana player who will be in the East line-up tonight, almost brought the Pacers a victory over Minnesota Sunday. He scored a trio of three-point goals in the last two minutes that helped cut a 17-point Muskie lead to two points.

Jim Pollard, the former all-pro for the old Minneapolis Lakers of the National Basketball Association, will coach the East All-Stars and Babe McCarthy

will direct the West. Pollard's Minnesota Muskies lead the Eastern Division and McCarthy's New Orleans Buccaneers head the West.

Probable starters for the East will be center Mel Daniels and guard Don Freeman of Minnesota; guard Fred Lewis and forward Roger Brown of Indiana, and forward Connie Hawkins of Pittsburgh.

The West probably will open with Levern Tart, the league's leading scorer from Oakland, and Denver's Larry Jones at guard; center Red Robbins and forward Doug Moe of New Orleans, and Cliff Hagan, the league's oldest player and the Dallas player-coach, at the other forward spot.

Boston Ready To Make Move

BOSTON (AP) — Coach Harry Siden figures the time has arrived for his Boston Bruins to make their move in the National Hockey League's East Division racem.

"Playing 10 of our next 13 games at home, there's no question," Siden said. "We have to make our move now."

Although the Bruins picked up only four of a possible 12 points on a six-game road trip, Siden and the Bruins were not disheartened after their return home Monday.

"I wasn't pleased with the results, but we deserved more points for the way we played," the coach said. "We really played well in losing (4-2) in Chicago Sunday. We could have won it."

The Bruins dropped three points behind Chicago in the divisional race. They have a 7-9-4 record on the road, but are 13-3 at home.

"I think we're going to be all right now," Siden said.

Official league figures show that the Bruins have four players among the top six scorers in the NHL: Chicago's Bobby Hull and Stan Mikita are tied for first with 48 points.

Then the Bruins take charge. Fred Stanfield is third with 41 points, with Johnny Bucyk and John McKenzie tied for fourth with 40 each. Phil Esposito is sixth, just another point back.

"All four certainly deserve strong consideration for All-Star recognition," Siden said in praising his high-scoring forwards. "And so do three of our defensemen — Bobby Orr, Ted Green and Dallas Smith."

New Football Rules Listed

LAS VEGAS, Nev. (AP) — Eight new rules will go into effect for the 1968 football season as a result of action last weekend by the National Federation of High School Athletic Associations.

Under the new rules:

—A team with a player on the field without all required protective equipment will be assessed a 15-yard penalty.

—If a kickoff is touched illegally by a member of the kicking team before the ball has traveled 10 yards, the receiving team may take control at the point of contact.

—On a double foul, both fouls must be made during live ball.

—Video tape or any mechanical visual aid is prohibited during the game.

—A game interrupted by a cause beyond the control of game officials will continue at the point of interruption unless both teams agree otherwise.

—All ineligible receivers will be required to remain in or behind the neutral zone until a pass beyond the line of scrimmage is in flight.

—A player who signals for a fair catch is prohibited from blocking an opponent on that down.

—Polyfoam pylons or flags may be used to mark the intersection of the sidelines with the goal lines.

Detroit Dispatch Closes; Weekend Reopening Seen

DETROIT (AP) — The Detroit Daily Dispatch, one of three interim papers during Detroit's nearly eight-weeks-long newspaper shutdown, says it is ceasing publication temporarily to reorganize.

The announcement came Monday from the paper's general manager, Edward R. Price. He said, "This is not the demise of the Dispatch. We hope to have it out by the weekend."

Price said the paper's corporate structure and staff would be subject to a complete overhaul. No further details were immediately available.

The announcement prompted most of the paper's employees to start cleaning out their desks and many to start hunting for other jobs, though Price said they would be recalled when the paper starts publishing again.

The Dispatch, smallest of the three interim papers started publishing shortly after the Detroit News was struck by the Teamsters at midnight Nov. 15 and the Free Press suspended publication in support of the News two days later.

Plymouth Inn Features Hippo

PLYMOUTH (AP) — No lion this time, but a Plymouth restaurant has gone hip on its menu, hippopotamus this is.

A 485-pound carcass, cleaned and frozen in South Africa, is chained outside the Hillside Inn in the Southern Michigan town of Plymouth.

"We'll probably start cooking it the first week in February. We hope to leave it outside, as long as the weather permits," explained Tom Stremich, restaurant manager. Temperatures have been below freezing in recent days.

"We think it will taste a little bit on the order of pork, but we're not too sure," he said. He said the meat cost over \$1,000.

"Last year, we had lion. It tasted like veal. Next year? Well, possibly we'll get a giraffe," he said.

Card of Thanks

Sharkey

I would like to say Thank you to Edward Moto and John Moniowczak who assisted us at the scene of the accident. Also to those who helped in any other way. Also to those who sent flowers and cards. Your kind acts will never be forgotten.

Bernice & James Sharkey

In Memoriam

Christensen

In loving memory of Anna Mae Christensen, who passed away 1 year ago, January 9, 1967.

Do not ask us if we miss her. For there's such a vacant place. Off! We think we hear her footsteps.

Once we see her smiling face. For she left us broken hearted. Friends may think the wound is healed. But they so little know the sorrow that is in our hearts concealed.

Sadly Missed by Husband, Children, Father, Grandchildren, Brothers and Sisters

LEGAL NOTICES

ORDINANCE NO. 500
AN ORDINANCE ENTITLED
"AN ORDINANCE TO REPEAL
ORDINANCE NO. 163, ADOPTED
APRIL 8, 1946."

THE CITY OF ESCANABA ORDAINS:

Section 1. That ordinance No. 163, being an ordinance creating a Housing Commission for the City of Escanaba, Michigan, for the specific purpose of instituting Veterans Housing in the City of Gladstone, adopted April 8, 1946, be and the same hereby repealed.

Section 2. This ordinance shall be published once within one week after its passage and shall be in full force and effect ten (10) days from the date of its publication.

Edward J. Guindon, Clerk of the City of Escanaba, Michigan do hereby certify that the above and foregoing ordinance was duly passed and adopted at a meeting of the City Council held on January 4, 1968.

Edward J. Guindon,
City Clerk

25 Years Ago

Near zero weather of the past two days has thickened the bay ice here and permitted the start of the winter smelt fishing season two weeks ahead of last year. Favorable ice conditions and higher prices have brought out more than 100 winter fishermen.

★ ★ ★

Moving pictures of Escanaba smelt fishing will be made by the education division of the Michigan Conservation Department here on January 10 or 11.

50 Years Ago

Eight new citizens of the United States took the oath of allegiance before Judge R. C. Flannigan in the circuit court recently. Among the new citizens was John A. Allo, who only a few months ago found out that he was not a full-fledged citizen of the United States, as he had only taken out first naturalization papers, and had never completed the process.

Tool, Die Shop Strike Settled

DETROIT (AP) — Striking United Auto Workers and the Detroit Tooling Association reached agreement Monday on a new contract giving workers a \$50 "settlement bonus" and running to March 1, 1971.

The UAW said the new contract, excluding the settlement bonus, is worth \$1.20 hourly in increased wages and fringe benefits for the skilled. Wage hikes were figured at 95 cents hourly and fringe gains at 25 cents hourly.

The skilled package carries a 50-cent hourly increase, retroactive to last Nov. 1; another 10 cents in March; 5 cents additional next November and another 15 cents in March of 1969 and 1970. Non-skilled get 46-cent increases and apprentices 44 cents.

If ratified Wednesday by approximately 6,000 UAW members employed in 54 Detroit area tool and die shops, the contract would end a strike which began last Nov. 20. The vast majority of those involved are skilled tradesmen.

GLADSTONE

Elderly Housing Loan Of \$706,619 Okayed

It was full steam ahead for the City of Gladstone's 50-unit housing project for the elderly that it has been approved," said Michael LaPine, chairman of the Housing Commission. "I can see nothing now to hold up the project."

Final major hurdle toward construction of the 50-unit apartment complex was cleared Monday with the announcement by Sen. Philip Hart in Washington that the Housing and Urban Development Administration has approved a \$706,619 loan to the Gladstone Housing Commission.

It was full steam ahead for the commission hopes to have the three-story building completed in time for occupancy by next Christmas.

Started In 1965

"In a short time we hope to be in a position to begin receiving applications for residency," LaPine said.

City Manager H. J. Henricken, who has worked with the Housing Commission and the City Commission for several years in planning the project, also was pleased that the loan was approved.

"We've been working on this a long time," he said.

The project was started in 1965 with appointment of the Housing Commission. Since then, countless hours have gone into planning meetings with members of the community, federal officials and with Nichols and Barone, Architects, of Green Bay, Wis.

Final design conference with the Housing Assistance Authority in Chicago is scheduled for Feb. 5.

Open To All

The 50-unit project will be open to all residents of Delta County, LaPine emphasized. Elderly citizens won't have to be residents of Gladstone to apply for an apartment.

Rents of the 400-square foot units, which will include a living room, furnished kitchen, bathroom and bedroom, are expected to range between \$30 and \$55 per month with the average about \$39 per month. Floors will be all of vinyl asbestos.

Forty-eight of the units will be one bedroom with the remaining two units each having two bedrooms. Also included in the project will be an office for the executive director, who will manage the project, a community space with kitchen facilities, lobbies, balconies, laundries, central incinerator, mail room, maintenance shop, terrace and a paved parking lot for 18 cars.

Site of the project is a three-acre plot on 4th St. south of Dakota Ave., about three blocks west of Wilderness Park.

Baptist Youth Plan Outing

The Youth of Grace Baptist Church and the Baptist Church in Daggett will spend Saturday skating, skiing and sliding on the pond and hills at the farm home of the interim pastor, Rev. William Turnwall, at Daggett.

Women of Grace Church will serve lunch at noon. In the event of unfavorable weather the event will be postponed until a later date.

Briefly Told

Lodge 103, Brotherhood of Railroad Trainmen, will hold a regular meeting at the Legion Hall at 8 p.m. today. General Chairman, C. G. Bueo, of Minneapolis, will attend.
